THE ASSOCIATED GENERAL CONTRACTORS - AGC - SAN DIEGO CHAPTER

This class is all about remaking your PowerPoint presentations so that they look better and make your overall presentation more successful. Most PowerPoint classes teach the mechanics of PowerPoint but do not teach how to create a visually engaging presentation that really impresses an audience. Consequently, most PowerPoint presentations are pretty dull and may even sabotage your talk. Students should have the basic knowledge of how to use PowerPoint. Students will...

- Learn tricks used by the creators of award-winning presentations.
- Work through tutorials on how to remake dull presentations into "WOW" presentations.
- Explore choosing appropriate colors and how to present visually engaging data.
- Perfect presentation by incorporating high-impact animation and multimedia elements.
