

Prevailing Wage

Are you in compliance?

If you're working on projects funded by both Federal and State funds, knowing what's expected of you can be quite confusing

- What forms do I use?
- What about using apprentices?
- Can I use helpers?
- Where can I find appropriate help?
- Where do I get reliable information?
- How do I pay fringe benefits?

With the new stimulus package and bond issues that have passed, there have been numerous calls with questions dealing with Prevailing Wage & Davis Bacon Act.

A very large portion of these inquiries deal with the reporting and paperwork associated with certified payroll, fringe benefits statements, apprenticeship, etc.

This workshop offers step-by-step guidelines of the information contractors and their personnel need to know regarding the Davis Bacon Act and the California State Prevailing Wage.

Workshop Dates and Locations

September 2, 2009

November 18, 2009

Time: 9:30am – 3:30 pm

Price: Members \$179

Non Members \$299

AGC has invited department heads from NAVFAC, Airport Authority, San Diego City Schools, SANDAG, CALTRANS, & AGC Apprenticeship to discuss reporting

Facilitated By Paul Stout, Power Summit

Facilitator: Paul Stout LEED AP

Estimating, Project Management, Prevailing Wage, LEED AP

Paul Stout is a construction project manager, estimator and construction seminar instructor, bringing more than twenty five years of practical, hands-on construction experience into the seminar / workshop and consulting arena. From Laborer to Project Manager, Paul advanced through the ranks to learn the industry from the inside out. He was a crew Foreman or Project Superintendent for five years, an Estimator for more than five years and a Project Manager for more than ten years. Paul has managed projects from the position of both Subcontractor and Prime Contractor. Paul has written, produced and presented many components for Certificate Series Programs for Foremen, Project Managers, Estimators, and Project Engineers. Since the year 2000, Paul has conducted 14 construction project management software training sessions and presented hundreds of seminars and workshops in 60 US cities, spanning 22 states.
