BIM Forum

Topics of Discussion:

- BIG BIM vs. little bim
- Managing BIM - "THE TEAM"
- Overlapping BIM w/
Other Elements
- Mech, Elec, Plbg
- Walls, Ceiling, FF & E
- Maintenance & Repair
- Construction Documents
- Contracts
- RFP, RFI, ?????
- Risk / Liability
- Change & Revision
Management
- Pre Construction
- Claims
- BIM Infrastructure
- Scenarios will be explored

BIM provides the potential for a virtual information model to be handed from Design Team (architects, surveyors, consulting engineers, and others) to Contractor and Subcontractors and then to the Owner, each adding their own additional discipline-specific knowledge and tracking of changes to the single model. This is a "forum" for discussion and learning. There will be a panel of professionals to assist in the discussion. There will be focus group breakout sessions to allow for a more complete coverage of questions and concerns.

- Novice Participants will benefit from the discussion
- There will be a focus on "Integrated Project Delivery"
- Various Cost-Benefit
