Cavnac & Associates Presents**

6/11/2008

11:00AM—1:00PM

WORKERS COMP

Often the difference between a successful and disastrous job is based on how well the exposures to loss on a project is managed. This course will assist contractors in successfully identifying and managing their exposures to loss. Besides key tips on how to make your company more attractive to the insurance underwriting community, a guideline will be provided to help you positively impact your bottom line by lowering your total cost of risk

Highlights

- ◆ Wraps
- ◆ Design Build
- ◆ Workers Compensation
- ◆ Other Exposures
