

# Construction Quality Management (CQM-C) for Contractors

## MEETS NAVFAC, USACE & AFCEE CQM Regulations

This two-day class provides Quality Assurance as well as Quality Control personnel the policy and procedure used in post-award construction. The class is interactive, uses DVD, class instruction, workbook exercises with discussion, breakout sessions and case study exercises. Students will be provided with a student workbook but are also required to bring the materials listed below.

**To successfully complete the course** requires willing class participation, satisfactory completion of class assignments, submission of a satisfactory and conforming CQC Plan, be present for **both days of class** and achieve a passing grade of 80% on the written test given at the end of the course. A certificate will be issued to all students who satisfactorily complete the course and is valid for 5 years. Certificates from a 2 day class will not provide any Continuing Education Units (CEU's).

### Target Audience:

- Contractor Quality Control (CQC) personnel
- Contractor Project Superintendents
- Government Construction Managers
- Architects

## Instructor: Larry Smith

Larry Smith is an Independent Consultant working with numerous Construction, CM and Engineering firms for best practices, schedule review and analysis, and dispute resolution. Larry is a Professional Civil Engineer and Certified Construction Manager. Larry has managed and directed a diverse team of engineers and construction managers executing Civil Works and Military Construction Programs for over 40 years. Larry promotes and champions Professional Registration for Engineers and Certification for Engineers and Construction Managers. He served as a Governor to the ASCE Construction Institute and to the Construction Managers Certification Institute. Larry serves on the Advisory Board for 21 Delta facilitating the placement of Surety Bonds issued to Small Disadvantaged Businesses (SDB's) in the Small Business Administration contracting programs. Specialties: Construction Contract Administration and Professional Construction Management training expert, specializing in day-to-day construction contract administration and CM Standards of Practice.
