

BLUE PRINT READING FOR CONSTRUCTION

COURSE DESCRIPTION: Everyone in the construction industry feels more accomplished when they can read and understand construction drawings. This quick-start approach exposes participants to the fundamental nomenclature of construction drawings and specifications as it works systematically through the various disciplines.

MODULE 1: General Overview

What do the lines and abbreviations mean and how are they used? Similarities and differences between various discipline drawings. How plans and specifications work together. Explore the “road signs” and get comfortable navigating a set of plans.

MODULE 2: Civil

MODULE 3: Architectural and Structural

MODULE 4: Electrical, Plumbing and Mechanical

This course uses both hard copy and on-screen plans to fully demonstrate the techniques being taught

LEARNING OBJECTIVES / OUTCOMES:

- Know how to navigate commercial plans and specifications
- Be able to follow the ‘roadmaps’ to find required information
- Know how to read various plan and detail notes
- Understand the various views
- Understand what material schedules are and how to use them
- Perform basic plan takeoff activities
- Know the basic relationship between plans and specs

Instructor: Paul Stout is a construction project manager, estimator, LEED Accredited Professional, facilitator, seminar instructor, and the AGC of America’s 2009 National Instructor of the Year. He brings more than twenty-three years of practical, hands-on construction experience to the arena. From Laborer to Project Manager, Paul advanced through the ranks to learn the industry from the inside out. This progression of personal and career growth included labor, supervision, and management for hundreds of projects. He was a crew Foreman or Project Superintendent for five years, an Estimator for more than five years and a Project Manager for more than ten years. Paul has managed projects from the position of both Subcontractor and Prime Contractor (GC).
