January 14, 2019

AGC’s Installation Dinner - Deadline to Register is Wednesday, January 16!

This is the final reminder to sign up for the AGC Installation Dinner on January 21 at the Hilton San Diego Bayfront. See the registration form below, or contact Rae Krushensky at raek@agcsd.org

Proudly sponsored by Flood and Peterson!

Highlights of the evening will include:

- **Steve Friar**, Regional Director of Planning - Western US, of Hensel Phelps, to be installed as the 2019 AGC San Diego President. Come and show your support as Steve takes the reins of the AGC Leadership this year.

- A special AGC SIR award will also be presented in memory of **Kevin Elliott**. Kevin was a beloved figure within the industry and left us way too soon. The Elliott family and Roel Construction has been a member of the AGC for decades, and Kevin served on the AGC Board of Directors, including serving as President in 2009.

- **Jeff Harper**, President of Harper Construction, will share his comments as the outgoing President on the progress of the...
AGC and the accomplishments of the industry during the past year.

- **Presentation of AGC San Diego Member Awards.** There are many companies and individuals within the AGC who strive to be the very best they can by demonstrating honest and ethical business practices, by exemplifying the AGC motto of Skill, Integrity and Responsibility, and by their promotion, involvement and support of the AGC, San Diego Chapter.

- **AGC Apprentice Program** - Honor Graduates
- **AGC Project Management Program** - Graduation

You have a significant investment in this Association. It is important that you understand the messages these individuals have concerning the direction of the AGC.

Bottom line.... this is an opportunity to give those in attendance a real “feel” for the San Diego construction industry, and to give recognition to those that have volunteered to lead the industry in 2018 and 2019.

**AGC’s Chief Economist to "Tell it Like it is" on February 12!**

**Brad Barnum, Executive Vice President**

Uncertain political and economic times are all around us, but there is an upcoming event that will certainly piqued your attention...a visit by AGC of America’s Chief Economist to discuss the outlook for construction in 2019!

On Tuesday, February 12, from 10:30 AM - Noon, AGC is pleased to join the San Diego Regional Construction Procurement Committee in hosting the "Public Works & Private Construction Outlook" with Ken Simonson, who has over 40 years of experience analyzing, advocating, and communicating about economic and tax issues. This will be his sixth visit to AGC in as many years, and he always provides a thorough analysis!

Ken will share his views on the region's construction growth, and he will provide the current economic factors impacting the public works and private construction markets. He also will give his prognosis for construction material costs, as well as labor costs and availability. He will address the implications for construction, both locally and nationally, from policies affecting taxes, infrastructure funding, trade, immigration, the environment, and the federal government shutdown (if it is not over by then).
AGC members and public agency representatives are encouraged to attend this FREE seminar, which will be held at AGC on Tuesday, February 12, from 10:30 AM to Noon.

INDUSTRY NEWS

New EPA and Army Corps Rule Provides Needed Clarity to Allow States to Keep Local Waters Clean

Brad Barnum, Executive Vice President

Last month, the U.S. Environmental Protection Agency (EPA) and Army Corps of Engineers proposed a new clean water rule to replace the controversial 2015 Waters of the United States (WOTUS) rule. The 2015 WOTUS rule is undergoing legal challenges and is on hold in 28 states, creating a patchwork of regulations.

The rule will provide the clarity needed to ensure that the waters of the U.S. continue to become even cleaner. It outlines clear and specific guidelines as to which sites require a federal water permit in addition to state and local water permits, and what needs to be done to protect federally permitted waters. As a result, it will enable contractors for all types of construction projects, from schools to local roadways and other infrastructure, to understand which permits they need and proceed without substantial regulatory delay and additional cost.

More important, the new clean water proposal will replace misguided mandates imposed by the previous administration that were both likely unlawful and created significant confusion about which waters were covered by whom. The prior rule had never been fully implemented nationwide, it was immediately challenged in court, and it caused confusing jurisdictional “tests” that would have increased costs and delays on virtually every type of construction project.

The new proposal will provide the environmental protections our waterways deserve with the clarity needed to ensure full compliance. Over the coming months, AGC of America will work with federal officials to ensure the completion and implementation of this new clean water rule.

EVENTS
SDSU Students to Compete in ASC Competition - Help the Teams Prepare - Spectators Needed!

Kellie Korhonen, AGC Digital Communications and Technology Manager

Join us this Thursday, January 17 4:30 PM - 7:30 PM at AGC

Over the past nine months, SDSU Construction Engineering & Management (CEM) students have been working hard and training for the annual Associated Schools of Construction (ASC) "Reno Competition" in February 2019. The competition teams are gearing up for their final training event before they head up to Reno, Nevada, for the competition.

AGC’s Construction Leadership Council (CLC) is hosting a final mock problem for the students this Thursday, January 17 at the AGC San Diego Chapter. Help us help the students by sharing your industry knowledge - the return on investment is preparing these bright young people to be great construction industry professionals.

Learn more about the ASC Reno Competition by watching a recap of the 2016 competition experience.

Please join the CLC on January 17 as spectators. We will be serving beer/wine and food starting at 4:30 PM. We promise you will be impressed!

February 2019

Feb. 6         7:00 AM - 9:00 AM     Safety Meeting
Feb. 28  10:00 AM - 11:30 AM       Government Relations

Get involved in the AGC by serving on one or more AGC committees. This is a great way to network with fellow AGC members, and to have a voice in the industry!

About Monday Morning Quarterback
AGC San Diego Chapter's Monday Morning Quarterback is a "hot off the press" and to the point Monday morning briefing on the important issues facing San Diego's construction industry. It is prepared by AGC Chief Executive Officer, Eddie Sprecco, and Executive Vice President, Brad Barnum.

Please contact Eddie Sprecco or Brad Barnum with your comments, or with information that should be conveyed to the industry through this service. Well over 3,000 individuals employed by AGC member firms are part of this system.
