October 12, 2016
7:30 am - 2:30 pm

Conference Overview
AGC’s Construction Technology Conference is a one-day industry event providing cutting edge educational breakout sessions focusing on the hottest topics in construction technology. The 2016 conference will touch on topics such as Cyber Security, Jobsite Tech, Virtual Design & Construction, Mobile Technologies, and much more.

AGC’s Technology Trends in Construction Committee has retained numerous high-profile speakers to present at this conference. Join your fellow industry professionals for a day of knowledge and takeaways that’ll secure your office and jobsites.
